STD-930 Hand-bag Shaping Machine

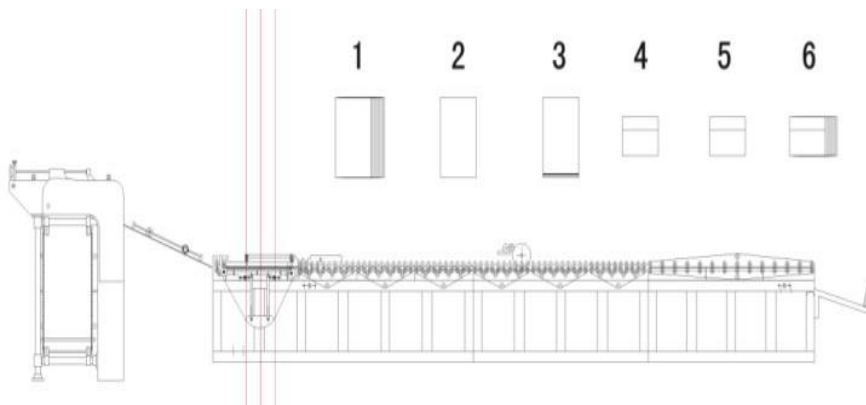

Structure Character

- 1, Automatic suction of printed and pressed paper according to the size demanded by the machine
- 2, Toggle pin position checking is adopted to make the locating accurate
- 3, Disk glue applying mode is adopted to ensure the glue well distributed effectively.
- 4, The pasting drum and pressing are stable and reliable

Main Technical Data

Speed	3000-4000pcs/h
Applicable Paper Specification	450*300-980*600mm
Applicable Paper Grammage	128-350g/m ²
Power	2.2KW
Power of Pump	3KW
Weight	1000KG
Dimensions	7950*1600*1600mm

制品流程 Envelop production process

1. 给纸 (Paper feeding)

2. 定位 (Locating)

3. 印胶 (Glue applying)

4. 纵折 (Longitudinally folding)

5. 压合 (Pressing fit)

6. 完成 (Completing)

ADD: Songqiao Industrial Zone, Pingyang County, Zhejiang, China
